

Lab 3 Configuring Color and Text with CSS [20 points]

Objectives

- Use colors on web pages
- Generate style sheets that configure color and text properties
- Create external style sheets
- Write CSS class and id selectors
- Validate CSS

Preparation

- Read Chapter 3 of the textbook

What to do

1. [2 marks] Copy your personal web page from Lab 2 to the folder. Use embedded CSS where appropriate to perform the following configurations:
 - Configure a good background color and text color for the body and all the headings. [1 points]
 - Remove the underline from all the hyperlinks. [1 point]
2. [8 marks] Complete **Hands-On Exercises** 1-7, which are located before the Web Research section at the end of chapter 3 in the textbook. 1-6 [6 points] 7 [2 points]
3. [5 points] Complete the Website Case Study: **JavaJam Coffee Bar** in of Focus on Web Design section of chapter 3 of the textbook.
4. [5 points] Complete the Website Case Study: **Pacific Trails Resort** in of Focus on Web Design section of chapter 3 of the textbook.

Submission:

Create a folder for each task and put all folders into a folder named as YourFirstName_Lab3. Zip the folder and submit to Brightspace. Note: The answers of Hands-On Exercises 1-7 in task number 2 can be written in one document.
