Lab#5

Oct 13, 2022

Objectives:

Practice Inheritance, polymorphism, and Interface

Preparation:

Study Inheritance, polymorphism, and interface from your text book.

Due date:

Due Date: 11:00 PM on Wednesday Oct 19, 2022

Where to upload:

Copy all source code and tutorial5.rtf that includes your answers into folder lab5(tutorial), then zip folder to yourStudentID.zip and upload it to lab5 in D2L.

What to do:

Download [tutorial5.rtf](#) . Study it and provide answer in the spaces provided.

Develop source files for each part, and included them in your zip file.

Notes:

1. In the answer part, do not refer your marker to the source file. You should explain and discuss your answers clearly, otherwise your marker may not mark your assignment.
2. The Tutorial5..rtf is in rich format. Either you should upload it as rtf, doc, or docx format. Otherwise you may get zero for this tutorial since your marker may not be able to open and read it.

This week you only have a tutorial.

Total Mark: 25
