Project Milestone 2: Web Project Development [20 points]

Objectives
- Add forms in your website
- Self-review your web development project
- Make test plans and test the web pages

Preparation
- Read Chapters 9 and 10 of the textbook.

What to do
1. [5 points] Continue to enrich the content and improve the layout on all devices of the webpages of your project website.

2. [6 points] Complete the Web Project (Hands-on Practice Case) in **Web Project** section at the very end of chapter 9 to include styled forms in your website.

3. [9 points] Complete the Web Project (Hands-on Practice Case) in **Web Project** section at the very end of chapter 10 to review your project and create a test plan.

Submission:
Submit one zipped folder that contains the html and css files of the pages required to Brightspace.
